THIS IS A NO JUDGEMENT ZONE, DO NOT BE INTIMIDATED!

This training is meant to demystify firearms.

A comfortable Property tech is a confident one!

-EPD RANGE DIRECTIONS-

25855 Valley Center Rd.

Escondido, CA 92025

Sgt. John Russo

760-644-1097

jprusso@escondido.org

Here are the directions to the range. Take the Valley Pkwy. exit off of I-15. Head east bound through Escondido. Valley Pkwy. becomes Valley Center Road after you get through the city. You will come to a light at Lake Wohlford; this is your warning light. Go through this light and continue for about 1.6 more miles.

You will start going up a steep grade towards Valley Center. You will take a couple of turns and then come out onto a long straight away. Look for a lone driveway on the right side. There will be a large black chain link fence running along the right shoulder of the road. There is not much else so it is easy to miss. The driveway has the address numbers on the fence along with a white and orange flag. The grade is divided by a concrete barrier so if you miss the driveway you have to go all the way up to Valley Center, turn around, come back down, and then back up to the range. We usually have a red cone marking the driveway but they often get stolen.

When you turn into the driveway there is a large black chain link gate. Go through this gate and down the hill straight for about 100 yards until you come to another chain link gate. Go through this about 100 yards and you will come to the Police Range..
